

MANTALEDA

ACCESSIBLE BATHING

•YORKSHIRE CRAFTED•

MOVING INTO 2022

Looking at the trends for bathrooms in the coming year

Offering Care at Home

Homes are becoming multigenerational with a greater need for flexibility to care for relatives at home rather than moving into a care home.

Future Proofing Homes

Multigenerational homes will drive the need to be future-proof for old age and reduced mobility, with functionality being key.

At Mantaleda we offer a range of easy access bathing solutions to suit all the family's needs.
